THE RIVET OF GOLD.

Telegrams from Bahia Blanca announce the glorious news that the rails are joined connecting the prolongation works of the Buenos Ayres Great Southern Railway, and that in a day or two the trains can run through from Buenos Ayres to Bahia Blanca. We want a rivet of gold to bind the connecting rail, and a goblet sparkling with diamonds to drink to the health of the men who framed, and the brains, the capital and the strong hands that carried out the works.

Believing as we do that the opening to the public of the Bahia Blanca Railway will be the greatest new departure for this country in the memory of our contemporaries, we cannot forego this opportunity to remind our readers of the truly eventful year we are entering on, and which is destined to surpass in the greatness of our progress and the magnitude of our enterprises all our previous epochs.

The railway to Bahia Blanca not only throws open to us another province of Buenos Ayres—larger, richer and more fertile than the dear old Samborombon, Salado and Rio de Areco province—but it gives us a grand ultramar port that will afford every accommodation for large steamers and the easy landing of all that description of heavy freight which could be only brought ashore in Buenos Ayres at so much labour and expense.

This railway brings us to the edge of a new and unexplored zone, namely, the Colorado, Patagones, and Rio Negro districts—new countries more European for their character of soil, climate and vegetation than any other portion of the Plate, and destined even in the present generation to outshine Santa Fe as a vast wheat-producing country, since we all know that the South wheat is the best in the whole River Plate.

But we shall not stop now to consider the mere local influences of the opening of the Bahia Blanca Railway, rather let us contemplate the mighty changes of which this Bahia Blanca Railway is the advent, and which are to mark the history of the present River Plate year:—

1. The opening of the Bahia Blanca Railway.
2. The opening of the Mendoza Railway.
3. The removal of Provincial Government to La Plata.
4. Extension Railway to Mar del Plata.
5. Extension Railway to Juarez.
6. The founding of French colonies in Curumalan.
7. Extension of Western Railway to Mellizas.
8. Extension of Western Railway to Magdalena.
9. Railway to Cañuelas.
10. Railway from Pergamino to Trenquelauquen and thence to Bahia Blanca.
11. Extension of Eastern Argentine Railway to Misiones.
12. Extension of Tucuman Railway to Salta and Jujuy.
13. Extension of Campana Railway to Rosario.
14. Extension of Candelaria Railway to Venado Tuerto.
15. City Improvement Works construction.
16. Murrieta Railway to Santa Fe Colonies.
17. Starting of four new country towns and colonies by Governor Rocha.
18. Opening of San Nicolas and Pergamino Railway.
19. Starting joint-stock line of steamers on Rio Negro.
20. Starting three Luro Colonies on Colorado.
21. Starting new railway from Salta to Oran, French Co.
22. Transandine Railway to Junin.
23. Railway from Recreo to Chumbicha.
24. Railway from Frias to Santiago del Estero.
25. Railway from Bahia Blanca to Mercedes, San Luis.

To the above hurried draft of the public works, etc. begun, continued and to be completed during the year, and we may safely add 500 new cattle and sheep estancias, and at least 50 new agricultural colonies founded by private parties. These are the triumphs for 1884 in the Plate, and this the glorious programme for the year of which the Bahia Blanca Railway is the parent. Let the rivet be gold that binds down the last rail.

THE MARQUIS OF LORNE ON EMIGRATION.

So far back as the year 1878, one of the editors of this paper foresaw, from the general feeling of the press and the people in Great Britain and Ireland, that before many years would be about the sorest and severest question in the British Isles would be emigration. Events have proved the correctness of the judgment. Emigration is now opposed by all, and notwithstanding the universal conviction that the Irishman, Scotchman and Englishman improves his position by starting in the new countries, still motives the most unworthy have given birth to such an opposition that no man in England or Ireland to-day, who aims at popularity, dares to say a word in favour of emigration.

In Europe generally there is a certain jealousy of those new countries and of those who have emigrated and prosper out there. People in Europe will not bring themselves to believe that a man can live as happily and as comfortably in Canada or the Plate as on the banks of the Shannon or the Zuderzee; but the people in Europe have yet much to learn that is well worth their knowing and the pressure of population in Europe is such that all the political and social barriers men may raise to impede emigration will be swept away by the torrents of the human tide which, since the days of Abraham, has laughed to scorn every effort made to hank-up and hold in starving impoverished man.

It is, indeed, significant that the Marquis of Lorne, who has just returned from Canada, should, with all the superior knowledge he has of that fine country, be afraid to speak up and fearlessly uphold the cause of emigration; but as many of his remarks on this subject will be read with interest, we give the following extract from his speech:—

No one doubts that very many in our large towns can benefit themselves by moving. Very many in the country can do so also, but I would rather see departures from the overcrowded towns. All emigrants should go out in the spring. Now, taking first the inducements offered to emigrants who desire to procure manual labour—at present the Canadian Pacific Railway is offering good wages for navvies, and the cost of a passage is only £3. Anyone knowing the trade of a blacksmith, a mason, a bricklayer, or willing to work as a hired man on a farm, is sure of employment. It is not so desirable for young men who wish to lead a town life, which, compared with the country life, gives fewer opportunities, for the cities are relatively to the population small. I have known many men who succeeded well, and who began with nothing, or next to nothing. But I should counsel all who contemplate emigration and the taking up of farm life to have, if single men, from £50 to £100, exclusive of the cost of the journey, and if married, from £200 or £250 to £500. There are good vacant places almost to be had anywhere. It was only the other day that Lord A. Russell told me of some good land near Halifax, Nova Scotia, to be had for a dollar an acre. In the North-West you can get 160 acres of excellent land for £2. The land regulations under which those grants are made are to the full as favourable as those of the United States, and in some respects are to be preferred. For women there is plenty of space and places but the women who will succeed must be women who will work; they who wish to go out as teachers, governesses, &c., had best stay at home. The noble Marquis then dealt with the several characteristics of the province of Manitoba, and gave a description of the Pacific Canadian Railway, which was excellently laid across a flat or rolling prairie, over which a train could proceed, at almost any speed. There is many a track, continued his lordship, where the meadow still appears untouched by the hand of man, yet it has long ago, depend upon it, been bought, and bought for a good round sum, and is now being held for a further advance in price. Why should a further advance be expected? The answer is simple. You need only look north, south, east and west, and everywhere you will see the wooden-planked house of the emigrant. Often a great patch of yellow wheat-field is bowing in the breezes; each train along the line you are following has, during the summer months, been carrying hundreds into Winnipeg, and hundreds away from Winnipeg to the West. Hundreds more have taken the trains over the prairie for points to which railway companies are already directing their attention, and to which lines are already projected, or are in process of completion. The arrival of yet more and more will follow, and the consequent rise in the value of the land is looked upon as a certainty. Last year 50,000 entered this land of promise, and this year it is probable that the number has been yet greater. Never was a railway better endowed for the purpose of its existence; for the Canadian Pacific Railway has about 25,000,000 acres in this fertile belt, and of this vast amount they still at the present moment hold at least 17,000,000 acres, and having the power to choose the good lands, and being able to reject those which may be inferior, they became possessed when they undertook the line of a land fortune which, with the 25,000,000 dollars in cash, was one of the richest ever granted. Some farming companies have accomplished wonders with the lands they possess, although they have as yet had them only two seasons. For instance, on the lands of a company called the Bell Farm Company you may see plough-riggs three or four miles in length. Having pointed out the characteristics of the different provinces in the Dominion, he said—Together they form a united country, for there is not any cause for discontent or quarrel among any of the members of this great family. They have a population of 5,000,000, and soon will possess a far greater number. Indeed, it has been calculated that in all probability within the next 100 years they will have more people than we have in these islands. They are thoroughly devoted to the connexion which exists between them and the mother country, a parent land which has allowed to its children the utmost liberty. If it had not been so they would long ago have cast off the allegiance of which they are now proud, and which is so useful to them, and will in the future be of such value to ourselves. It is our duty to cherish and foster to the utmost those feelings of regard and loyalty which they charish for us, only because the union with us is one of perfect freedom. We must remember at home what a strong nation their descendants must become, and how it is for our interests to make them satisfied to live under the flag we serve, for commerce always follows the flag and a greater commerce both for them and for us will be obtained by an adhesion to the sentiment which made them one with ourselves. These countries offer to our youth, unable to find a proper outlet at home, an unfailing field for success. There is hardly a man who has left these shores and cast in his lot with them who has not found it to his benefit. With the single exception of the comparatively few Chinese upon their Pacific coast—a number certain to decrease, because the advent of the Celestials is not encouraged, Their population consists of the elements which have made our own so strong, and exhibits the blended blood of the strongest European races. Almost everywhere our own tongue predominates and our own customs are observed. With the Dominion of Canada and the Australian continent in close relation to England, she need never fear that the proud position she has gained in the world can be shaken or even questioned (loud cheers.)

The Mayor moved a vote of thanks to the Marquis of Lorne for his address.

The Marquis of Lorne, who was loudly cheered, said he must say one word in acknowledgment of the kindness of the Mayor's remarks. Wherever he and his two friends who had accompanied him had appeared, the question had been asked, "Do you wish to encourage emigration?" He was going to take the privilege of a Northener, and not give a very direct answer (loud laughter.)

A CHAPTER OF ACCIDENTS

Sunday and yesterday were Black Letter days for the Plate: two dreadful accidents having occurred, one on each side of the river. At nine o'clock on Sunday night an immense crowd of people were pressing into the cars of the last train from the Tigre for town, when the engine was suddenly backed against the train, and the crowd, eager to find seats in the cars, did not hear the warning whistle. The shock was severe; dozens had narrow escapes, but a woman, with a child in her arms, who had one foot on the platform of a car, was hurled under the wheels, and she and her infant were both killed on the spot. The scene that ensued amongst those nearest the mangled remains was one of terrible excitement and alarm. Suddenly a loud and despairing wail was heard, and a man pushed through the crowd on the platform of the car and alighted. He had two children with him, one by each hand, and when his eyes caught the two corpses his previous cry of doubt and anxiety changed to the wildest screams of grief and despair; he tore his hair, wept like a child, groaned and then shrieked in such a terrible way that those near him at first thought his reason was gone: the sobs and cries of the poor little children with him were equally affecting, and many an eye was moist at the harrowing scene. He was the husband of the poor victim, and had entered the car, with the other two children, only a moment in advance of her. It took several gentlemen to hold the unfortunate man, so violent was his despair. Dr Jorge, Minister of the province, was present, and did good service in calming the excitement of the passengers and giving orders. The train was an hour late in consequence of this dreadful affair; and at Belgrano the passengers got another fright owing to a wheel of a carriage having broken, and it had to be left behind. This caused another delay, and it was long after 11 p.m when the train reached town.

On Sunday, also, two Lacroze tram cars ran into each other at the corner of Piedad and Maipu, the result being a lady's leg broken, as she jumped in terror from the car, and a boy's foot smashed by one of the horses stamping on it while the young fellow was jumping from the car.

The accident at Pocitos was greatly exaggerated at first, and much alarmed those who have friends staying in Montevideo. The *Nacion* published the following bulletin:—

Dont be alarmed by any false telegrams about the phenomenon of this morning: only one woman was drowned.

On the South beach this morning, from Pocitos to the English Church, about 7 a.m., a grey misty cloud swept up from the horizon towards the city, and at the same moment the war vessels in port fired several guns, which appeared to disperse the cloud. At the same instant the sea rose suddenly and hurled all those who were bathing between Pocitos and the Maua Dock on to the beach. The worst effects were felt near the Dock, At Pocitos three ladies lost their presence of mind and would have been drowned but for a young fellow named Joe Lalun, a French sailer, and deserter, who rushed in and saved them.

At Playa Ramirez the wave only went 20 metres beyond the usual limits. Near the English Church all the bathers were swept off their feet, and ladies and gentlemen wore pitched together in most admired confusion. Two ladies bathing near Las Peñas are the only victims as yet known. Mrs Gonzalez, wife of a Spanish grocer, was taken out dead: and her sister is still in a dangerous state, from fright.

I have made every possible enquiry and personal search, but can hear of no other accidents. The phenomenon has often occurred here before, but not so violently.

The *Nacional* gives the following:—

As 6½ a.m. a marine cyclone was seen for the first time here. One lady drowned on the South beach. No accident anywhere else, but several bathers had their clothes swept away, and they had to be locked up naked in a fisherman's hut till new clothes came from town.

The B. Oriental Consul received the following telegram:—

Be good enough to contradict the news of several people being drowned by the cyclone. One person was drowned. The rest of the news is all false.

Carlos del Campo.
Minister of Government.

In addition to the foregoing mishaps, we have to add an "off the line" on the Ensenada Railway, nobody hurt; a fire in Calle Alsina yesterday morning, and three camp fires in the Santa Fe colonies—a sufficient "Chapter of Accidents" for one day.

LATEST FROM THE CAMP.

Partido de Chivilcoy,
January 12th, 1884.

Dear *Standard*,

The wool season is almost over now, and most of the wool has already found its way to the Buenos Aires markets.

The prices given in the camp this season, especially in the Navarro and Monte partidos, have been exceptionally high, so that sellers have no reason to complain. I fear some "acopiadores" will be on the losing side. The prices paid and the competition for buying have been quite astonishing. The bulk of the wool has been sold in the camp this season, at prices ranging, more or less, between $75 and $95 m/c. Augmenting $9 per arrobe for transport, brokers' fees, etc., you can judge what good prices have been paid outside. On the whole, wool has been very clean, fleeces not averaging over 4 lbs. The colour and staple has turned out good. Shearers have been scarce and wages high.

All along, between Navarro, Suipacha and Chivilcoy, immense "cardales" meet the eye. In some places they have reached ten feet. The "cardos" are now ripe, and sheep, horses and cattle are picking up wonderfully. There is no better food for horses than the ripe seed of the "cardos." Far superior to oats. At the present time, quite a small fortune might be made by any enterprising man, who would take the trouble of storing the seed. I feel confident that his labour would repay him; and if not already introduced into Buenos Aires, the seed once known, and given a fair trial, and its beneficial effects tested, the principal livery-stables and all those who take a pride in the keep of their horses would readily support this new cereal.

I am sorry to notice that the "langosta" has invaded this and the neighbouring partido, Suipacha. Though not as yet general, still they are in sufficient quantities to seriously frighten the "vecindad." As a rule, they are of the smaller species, but every now and again, you stumble across some of the big green gentlemen, say about two inches long. Large tracts of land are dedicated to the growing of maize. The crops look very healthy and the cob is already formed. Alfalfa is good, and there have already been two cuttings. The potato-crop has turned out a decided success, and those who are unfortunate enough not to have sown any, can buy of the best, delivered at the house, for 4 and 5 paper dollars per 25 lbs. The abominable "cardo negro" and "cepa-caballo" are still showing their heads above ground; but in all other respects this partido can boast of having some of the richest lands in the Province.

Both Mr. Ronan and Mr Tim Burke sold the "borrega" wool on their camps at $79 m/c.

Suipacha camps are also looking well, and the little town is gradually assuming a business appearance, and new houses are being run up in all directions.

Talking of Suipacha, now that I think of it, I must correct a statement, which appeared in your "Editor's Table," a few days back.

Contrary to public opinion Monseñor Curley does not continue his offices for the partido of Navarro. The parish priest of Suipacha—the Rev. Father McNerney, will perform in future the duties of that Partido, for which he has already received full power from the Bishop. Monseñor Curley will be deeply regretted in the partido of Navarro, but still it will be one consolation to know that his vacated place will be occupied by a man who has already endeared himself to all his parishioners in Suipacha, for the zealous manner in which he follows up his vocation, and also for his kindness and affability.

Manuel Lopez' estancia "La Rica" is quite a little town in itself. There you come across all kinds of artisans, carpenters, blacksmiths, bakers, butchers, and last, but not least, sausage makers. About four hundred men are employed on the premises, and there is a store opened expressly to meet the wants of those employed in the vicinity. Enormous plots of flax, maize and wheat are to be seen everywhere. This year Don Manuel has 1,000 squares of wheat alone.

Four steam-threshing machines are at work, and the greatest activity is noticeable on all sides.

Two leagues beyond "La Rica," we come to a pretty little 'monte,' very compact and neat. Here lives Mr. Mackenzie, who is most hospitable to anyone who may chance to call up his way. Everything connected with the place denotes that the owner is not spending his time for nothing.

On Thursday, we had a heavy dash of rain, in fact quite a wet day.

Yours etc.,

Irishman.

CONSUL BAKER'S REPORT.

PRESENT CONDITION OF AGRICULTURE IN THE PROVINCES.

The public will await the publication of these reports with considerable interest. Meanwhile, in the absence of official data, I can only give such general statements in regard to the actual condition of agriculture and agricultural possibilities of the different provinces and their adaptability for particular crops, as is afforded by the limited sources of information at hand. These are meagre enough, though the following *résumé* may not be uninteresting.

PROVINCE OF BUENOS AIRES.

This is the most important, the most developed of all the fourteen provinces or states comprising the Argentine Republic. Within the old Indian frontier it contained about 2,500 leagues of land, to say nothing of the vast territory attached to it lying in the neighborhood of Bahia Blanca on the south. But within the last few years the frontier has been greatly advanced, and it is supposed to contain now about 72,50 squares leagues, though the total area is not definitely known. Until last year its principal city was Buenos Aires, but that has now been ceded to the general government as a capital, and it is henceforth to be, like Washington, under the control of the national congress. The new provincial capital has been located at Ensenada, where, under the name of La Plata, an embryo city has been projected on paper. The province contains, however, a number of important towns, of which I may mention San Nicolas, Lujan, Mercedes, Chivilcoy, Lobos, Chiascomus, Dolores, Las Flores, Azul, Tandil, Pergamino, Bragado, Bahia Blanca, &c., as also more than a hundred small villages.

The principal occupation of the inhabitants has heretofore been the raising of horses, horned cattle, and sheep, and the preparing the product for exportation, but considerable attention has lately been given to agriculture. In the immediate vicinity of Buenos Aires and other large centers of population the land has become too valuable to be longer profitably used for pastoral purposes, and, as in these localities agricultural pursuits pay so much better, to the acre, there is now a wide extent of most promising farms for leagues in all directions, north, south, and west of Buenos Aires. Along the lines of the several railways, and wherever there are growing towns, the tendency to convert cattle and sheep *estancias* into farming lands is every day becoming more general, while the flocks and herds are being farther removed out towards the frontiers. It is only a short time ago that the province did not produce breadstuffs enough for its own consumption, but the great surplus which now finds its way to a market in this city begins to constitute a large item in the freight traffic of the railways. Every year shows an increasing breadth of land devoted to the growing of wheat and Indian corn, but the crops are not confined to these cereals. Barley, oats, lucerne (alfalfa), potatoes, beans, sweet potatoes, pease, hemp, vines, vegetables, and fruits of all kinds are raised without any extra labor and produce most abundantly.

There seems to be no doubt that the low islands in the delta of the Paraná River, which are intersected in all directions by arroyos of small creeks, and flooded when the river is high, would make magnificent rice fields, but no effort has ever been made to try such a crop. Under President Sarmiento's intervention, a species of oiser for basket making was several years ago introduced from Chili, and has spread over other picturesque islands like magic, and it is now the source of an important industry and considerable wealth.

PROVINCE OF SANTA FE.

The province, which adjoins that of Buenos Ayres on the north, extends in a narrow strip along the Paraná River and is bounded on the north by the territory of the Gran Chaco, an immense body of unsettled country extending to the confines of Bolivia on the west. The area of this province is stated to be 120,000 square kilometres. It contains but two important cities—Santa Fé, which is the capital, founded in 1527, and Rosario, which is the second commercial port in the republic and well known for its foreign commerce. This is the most important agricultural province of the nation, and a very large proportion of the European immigration finds a home there. While the southern portion is, like Buenos Aires, an open pampa, the northern portion is covered with forests. Cattle-breeding was formerly the important industry; and while this is still the occupation of many of the native inhabitants, the great wealth of the province consists in the agricultural settlements, or "colonies" as they are called. These are becoming more and more prosperous, and every year a larger breadth of country, wrested from the *estancieros*, is broken up and put under tillage. Last year the number of acres under cultivation was stated to be about 200,000, but since then many new farms have been opened. All kinds of cereals, vegetables, and fruits not only do well, but in some cases produce two crops a year, thus furnishing a large surplus for export.

PROVINCE OF ENTRE RIOS

Bounded on two sides by the great rivers, Uruguay and Paraná, and ramified by innumerable water-courses, with rolling prairies of marvelous fertility and stretches of superb forests, this is probably better adapted for agricultural purposes than any other portion of the republic. In its soil all the products of the temperate zone prosper magnificently, and the best results are sure to follow the labors of the husbandman; but, owing to the constant political disturbances, *emeutes*, and revolutions which have for years been the curse of this province, it as yet makes but an insignificant showing in an agricultural point of view. It has an area of about 115,000 square kilometers, and possesses a number of promising towns, viz: Conception del Uruguay, which is the capital; Concordia, Villa Colon, San Jose, Gualeguay, Gualeguay-Chu, Victoria, La Paz, Paraná, &c., all of which, being located on the rivers, have more or less commerce. The principal occupation of the people, however, is pastoral, and must continue to be so until more confidence can be placed in the stability of the provincial government, which thus far, instead of inviting agricultural immigrants, has rather placed stumbling-blocks in their way. Ultimately, however, it will enjoy a better order of things, and then we may expect to see it the great grain-producing center of the republic.

EXTRAORDINARY TRIAL.

Joseph Betts was indicted for that on the 13th of September last he unlawfully, maliciously, and feloniously sent and caused to be received by Mr. Jeremiah James Colman, M.P., a certain letter threatening to kill and murder him, he, the prisoner, well knowing the contents of the letter, which was in these terms:—

"Norwich, Sept. 10th, 1883

"Sir,

"Although you employ many hundreds of people of the city of Norwich at your works who would probably otherwise be absolutely idle, and are as good an employer in that respect and in other ways as most other employers of male and female labour, yet we find, on computing the aggregate of payments to your "employes," that their wages on an average do not exceed £1 per week, which shows conclusively that the real bone and sinew labour upon your premises is but poorly paid for, and also from the fact that those whom you have set over the real workers to do the bullying and driving of the bees are paid a most extravagant wage in comparison to those poor beggars from whose sweat and toil you are accumulating your enormous and almost incalculable wealth, on the mere interest of which you and your progeny are living at your ease. Now, we know you have many good points, such as a heart that can be moved at known cases of hardship, sickness and bereavement, such as many of your class are totally devoid of; but since we have seen you about the country frequently—recently—in the society of those sporting and game-preserving parasites of social society, who are every year of their lives keeping their poor labourers further and further from what must shortly be their own, by virtue of their combined act, in the approaching general uprising, who are satisfied that you are a good man gone wrong, and that lower wages and payment for piece-work upon your place will gradually become the order of the day, till it becomes a regular grinding of the operatives' faces in the dust—as the time is therefore fast approaching when perforce the proceeds of such firms as yours will be fairly and proportionably distributed, to those from whose hard labour it accrues—we now advise you to adopt that principle at once by dividing the profits of your last year's business among your workmen and so continue the same plan per notice, or before next Christmas every member of your family, including yourself—when the old Bishop of Norwish is settled—will be known only as stinking carcasses and your best home the grave.

"(Signed)

Another Invincible."

The prisoner being called upon for his defence, proceeded to read a long and rambling written address, introducing other observations as he went on. He began by commenting on the terms in which the Lord Justice had noticed the case in his charge to the grand jury, and he then attacked the grand jury for finding the bill against him, as he said, on his lordship's direction, without sufficient evidence against him. He said that when he was charged with sending the letter to the Bishop, a clergyman had given him £10 to enable him to retain counsel for his defence, but his solicitor had neglected his defence, and when he complained of it he was charged by the warders with making a disturbance. He then went on to make complaints of what had occurred at the last assizes upon the former charge of sending the letter to the Bishop, which, he said, he had not "written," and for which he had not been tried. He was told the Bishop had withdrawn the charge, and did not intend to proceed with it; but, nevertheless, he was put to the bar, and asked to plead "Guilty," but he declined to do so, though told by the counsel that if he did not he would have to lie in gaol until the next assizes, and then, if found guilty, would very likely be sentenced to five years' penal servitude, and every effort was used to induce him to enter into recognizances. As to the present charge, he urged nothing in his defence beyond a bare denial, and called no witnesses. The Lord Justice left to the jury the two points he had presented to the grand jury. Did the letter contain a threat to kill and murder Mr Colman? Did the prisoner send it to him? The jury, after a brief deliberation, found the prisoner "Guilty," and the Lord Justice, observing that after what had occurred, he was not a fit object of liniency, sentenced him to 12 months' imprisonment, with hard labour.

SIGNOR MARIO.

Rome, Friday Night

The will left by Signor Mario was not completely executed. He was unable to sign it, and therefore it is not a legally binding document; nevertheless, no doubt, the intentions of the testator will be carried out. I have seen a copy of it. Mario leaves his house in Cagliari to his nephew, Stefano di Candia, who is now residing there, subject to the condition that the testator's sister shall continue to live in it. The will mentions that the bequest of the property in Cagliari to the nephew is because the daughters are otherwise provided for. It may not be generally known that about ten years ago the great tenor made a division of all the property he then possessed among his three daughters. The sum amounted to about twelve thousand pounds each. The benefit concert in London, to which the Queen and the Prince of Wales largely contributed, realised a fund for the purchase of an annuity on which Mario subsisted during the last years of his life. Some of his latest words were expressive of affection and gratitude to the English public, and of his devoted respect to the Queen and Royal Family.

The body will probably be conveyed to Cagliari in accordance with the wish of the deceased, but the funeral cannot take place yet. Meanwhile the remains lie in a zinc coffin at the Cemetery of San Lorenzo. Mario's wish at first was for cremation; but when it was observed to him that this might hurt certain susceptibilities he at once yielded, saying, "True, true; you are right." Mario received the sacraments, and died in the Catholic faith in which he was educated.

Some erroneous statements have been made respecting the place and date of his birth. Mario was born at Cagliari in 1810. His valuable collection of manuscripts and authographs is left to his daughter Clelia—Mrs Vaughan. Mario's intimate friend, Prince Odescalchi, undertook, at his request, the task of examining his papers and letters, destroying some, and keeping whatever he thought desirable to preserve. Mario's daughters are expected at Rome to-morrow.

The special report on La Plata in the *Patria Argentina* tallies remarkably with what "One of Ours" said last week about that woefully costly place. Billions are being sunk in the place, helter-skelter, and the poor tax-payers must pay the piper.

EDITOR'S TABLE.

The week has opened in a truly sad way. See "Chapter of Accidents" in another column. The most painful and intense excitement prevailed in town yesterday, when the *Diario's* exaggerated bulletin was published, and there was a rush to the telegraph office with messages to enquire if any of the hundreds of Porteños now in Montevideo were amongst the victims. This sad accident, although not so bad as first reported, should lead to a reform in the bathing place at Pocitos. It is wrong to allow women or men who cannot swim well to bathe on an open beach, even in the finest weather; there should be a secure enclosure for them. As for the Tigre accident, it is one bloody reason more for adopting the European system by which all passengers are locked into a "salle d'attente" until the train, with engine attached, is perfectly ready to receive them. The wonder is that, with our happy-go-lucky system on all the lines here, more fatal accidents do not occur.

Sunday and yesterday were the hottest days as yet. Everybody was panting and perspiring all day long; and brokers, bankers, barraqueros and other big-wigs threw business to the dogs and rushed to the Belgrano Baths, or to Lacroze's new baths in Calle Piedad, to reduce the temperature of their miserable bodies. Editors and policemen, however, had to stick to their pens and posts and refuse the most pressing invitations to join bathing parties. It is a mistake to bathe in the middle of the day. Early morn, or dewy eve, is the best time.

Mr. F. Parish, Chairman of the Great Southern Railway, will leave England for the Plate on 9th of next month. He comes to assist at the opening of the line to Bahia Blanca, and to further a scheme of still greater importance to this country than even the extension he will inaugurate.

We call the attention of the Manager of the River Plate Telegraph Company to a complaint which one of the first German merchants in this market requests us to publish. Yesterday, when the alarming news from Montevideo was published, he went to send a telegram, and offered a two patacon note of the National Bank in payment. The clerk refused it, and said he should have National money. Although surprised at this, the merchant gave him a note of five National dollars, and, when he received his change, was still more surprised to find a two patacon National Bank note amongst it. On asking how it was that the clerk gave him the same kind of note he refused to take in payment, he was answered most uncivilly and told to take his telegram elsewhere, if he did not like the change.

That curious Gallic production "John Bull et Son Isle" has gone through nineteen editions in France, and 20,000 copies have been sold in England. John Bull laughs at this Frenchmen being so easily gulled about his habits and customs, but in France they swallow every line of it.

St. Andrew's Scotch School was reopened yesterday. The Rev. Dr. James Smith, M.A., delivered a short address and introduced the pupils to the new teachers, Mr. Connacher, Head Master, and his Lady-Assistant Miss Dale. Amongst those present on this interesting occasion were Messrs. Thomas Drysdale, R. Inglis Runciman, J. Mohr Bell, J. Dodds, W. McKechnie, and many parents of the pupils.

"The number of questionable Lotteries daily increases. An evening colleague stated a few days ago that there were *seventeen* in circulation in Buenos Aires; and why the members of the Municipality do not exterminate such unwholsome and deleterious drugs from the market is a perfect mystery to everyone. The San Juan Lottery is played somewhere at midnight, and the 'empresario,' in a very few years, has been enabled to purchase and rebuild a mansion in the Calle San Martin. This is the great market for Lotteries, for not only have we Santa Fé, Mercedes, La Plata, La Edificadora, La Colonizadora, San José, Uruguay, Montevideo and a host of others too insignificant to mention, but German, French, Spanish, Brazilian and perhaps in the course of time we may have a Chinese and a Japanese. In fact it rains lotteries, and the poor citizens, before long, will be drenched out of house and home with them. No wonder there exists so much misery; how can it be otherwise when half, perhaps more, of the working man's wages go to enrich a set of fellows who can find no other way of making their fortunes? Prompt and vigorous measures are needed to put a stop to this cancer; and I doubt not for a moment that the proper authorities will take the matter in hand."

The Old Stager.

An average-sized subscriber called on us yesterday to protest vigorously against the height, or rather want of it, of the "toldos" over the shop doors. He smashed his best hat against one of them on Sunday, and says, very truly, that the authorities should remember that the average Englishman, German and North American is ever so much taller than Frenchmen, Italians and Argentines, and cannot pass where they can, without bobbing his head, which he should not be obliged to do. The shopkeepers should be forced to raise their 'toldos;' which, by the way, are getting lower and lower every year.

The Royal Mail steamer Tagus sails this afternoon. Mail bags close at 1 p.m. Mr Douglass Hamilton, British Minister at Quito, goes home in this steamer. We wish him a pleasant run home.

The National Bank has ordered eighteen millions of small notes in the United States, to replace the wretched emission struck off here, and only issued last week.

Our consumptive readers here and especially in Europe will cough less when they hear of the project that is on foot to start a Grand Hotel in Mendoza, where they can be cured in a jiffey, or at least in a month. Mendoza is the Sanitarium of the republic. No snow or ice. Consumption is unknown amongst the inhabitants. The hotel will consist of four separate buildings, having 150 salons and rooms provided with chimneys. It will be situated within extensive grounds, will be at night lit up by the electric light. There will be a splendid dining room, with numerous public rooms, comprising ladies' rooms, reading, smoking, billiard rooms, etc. The buildings will be fitted with every modern requirement, including hot and cold water baths. Lawn tennis grounds and orchestra. French cooks. Fresh milk, eggs, etc., supplied daily from the hotel farm. An English doctor will reside in the hotel. Terms, inclusive, from 10s per day.

The Revd. Dr. James Smith M.A. will preach on Sunday next at noon, at the Cabaña, Cañuelas district, and there will be no service at the Scotch Church in town; but the Sunday School will assemble at 1 p.m.

We remind the congregation of St. Andrew's Scotch Church of the Annual Meeting to be held this evening in the School Room. A large attendance is most desirable, as very important matters have to be discussed.

Masked balls are now in full swing in most of the theatres, though of course as yet the attendance is very limited. The Opera House is, as usual far in advance of the others, and it is wonderful what a pretty ball-room this theatre makes. The music there is in the nonpareil, 'non plus ultra' style.

We find the following interesting paragraph in the *Times*:—"The unveiling of the monument of Leibnitz at Leipsic on the 25th inst. was preceded by a meeting in the hall of the University. Many professors, all the students corporations, singing societies, corps and Burschenschaften were present in gala dress. The festal speech was delivered by Professor Heinze, of the Faculty of Philosophy. He briefly indicated the relation of the Leipsic University to Leibnitz, and then contrasted the great travelling activity of that philosopher with the stay at home propensities of Kant. Leibnitz, he said, was more or less a master and a labourer in all the four faculties—medicine, law, theology, and philosophy—allegorical representations of which adorn the sides of the pedestal whereon the statue stands. His fame, however, rests mainly on his services to philosophy. From early youth till old age he tried to invent a universal sign language, by means of which people of all nations might understand each other without sounds. His philosophy very deeply influenced Lessing. Not till quite lately has the philosophy of Leibnitz again found faithful adherents. After this speech had been delivered and a poem sung, a procession formed before the University and marched to the monument beside St. Thomas's Churchyard. There the Mayor, Herr Georgi, spoke briefly, celebrating Leibnitz as one of Leipsic's noblest sons, and then the veil fell. The bronze statue, in life-size, was modelled by Hänel and cast in Nürnberg. The philosopher is represented in the costume of his time, holding a book in his hand, and resting his arm on a globe."

The last rail connecting Bahia Blanca with this city was laid on Saturday. The *Porvenir* says that it has blown great guns at Bahia Blanca for the past fifteen days. The dust was so thick that the people had to keep their doors and windows closed. The heat has also been dreadful. People who had to go about kept a large piece of glass before their faces, to enable them to see through the dust.

We are most happy to announce that Dean Dillon is improving so rapidly that he was able to leave his bed yesterday, and his complete recovery is now certain.

The big pumping engines were tried on the Pipe Water again yesterday evening, and we believe without a burst, up or down.

Mrs Eduarda Garcia, the brilliant authoress, wife of the Argentine Minister in London, will leave for England on the 21st inst. We wish her a safe and pleasant voyage.

A well-dressed Frenchman fell dead yesterday in Calle Parana, corner of Arenales. Sunstroke, most likely.

We congratulate Lieut.-Colonels Spurr and Howard on their well-deserved promotion. No men in the Argentine navy have done more useful or better work.

Cedulas A	101¾
Cedulas E	88¾
Cedulas F	85¾
National Bank Shares....	130

The week has opened with a sudden drop in National Bank Shares and a rather steadier Cedula market. In the early part of the day National Bank Shares ruled very firm, and prices advanced to 130¾ for the end of the month, but at 1 o'clock there was a sharp downward turn in prices; some well-known parties sold heavily, and although the cash rate ruled the same, the price for the end of the month fell to 129¾, which is a fall of ¼ on the highest to-day's figure. Cedulas presented no such heavy fluctuation; Series A advanced to 101¾, and Series E opened and closed at 88¾, having touched 88¾ during the day. Series F ruled firm and advanced, opening at 85½ and closing at 85¾.

The sales at the ring during official hours were:—

Cedulas—
For cash A 11,580 at 101¾
For cash E 54,000 at 88¼-½-¾
For March 31st E 10,000 at 88¾
For cash F 65,300 at 88¼-½-¾
Sales, 141,800.
National Bank Shares—
For cash 300 at 130
For Jan. 31st 3,500 at 130¼-129⅝
For Feb. 29th 550 at 132-131
Sales, 4,350

The very sudden turn in the share market took the ring by surprise, as nothing important occurred in the general market and it was attributed to some new tactics of the speculators. Orphanades are offered at 138, which with the dividend at hand is considered as very cheap.

Messrs. Tallaferro & Sanchez sold yesterday for account of Mr. John E. Hughes 21 lots in Calles Brasil and Jujuy at prices ranging from $500 to 1,500 $/% per vara front, realising $190,000 $/% on the day's sale; Mr. Hughes remains with all the adjoining lots, which he refuses to sell at present. This property he bought a couple of years ago from the Mortgage Bank at a low price, and now since the National Government has begun to make its Plaza de Armas this property has risen greatly in the neighbourhood. This goes to show how much money is made in this market by parties who know when and where to buy.

Mr. Eastman, the popular broker has rented a fine piece of land in Pergamino for Mr. Kehoe, 600 squares, for $70,000 $/% per annum.

The shares of the new English Sugar Co., of Santiago del Estero, are quoted in London at 10s premium.

We think it right to contradict the purchase of six leagues of land in Santa Fé attributed to the editor of this paper.

This morning, as the Flores tramway entered the city through Calle Alsina close to the San Juan Church, the passengers were startled with the crowds of people running along the street to the corner of Piedras where a house was discovered on fire and the people busily occupied getting the furniture out. We believe the fire was soon extinguished.

Lord Dormer has arrived at Tucuman, where he was well received by the authorities. Mr. Bald, who accompanies his Lordship, was also welcomed; they go on to Salta and Jujuy.

The heat on 'Change to-day was excessive, and hats off was the rule at the ring, as the Bolsa Board supplies free fans to the brokers and their clients; there are more fans in use on 'Change than in Japan, every one carries a fan. There is certainly a great want of ventilation on the Bolsa, and it is to be hoped that in the new building the hall will be less of the American stove than the present edifice.

Three small lots of new National Bank Shares at 40 premium were sold on Saturday. These certificates were more offered to-day, although considered by many as the best buying in this market.

The sale reported in our last of estancia land in the Baradero sold at four millions per square league has caused much notice in the market; the price is, no doubt, the best yet except for land close to the suburbs of Buenos Aires; we have had no such price paid for land before. The immense difference between the price of this land and that of Venado Tuerto or Melincue shows how wide the margin present buyers have in buying at present rates.

The heat in the camp is tremendous and, notwithstanding, the thistles and rain the animals suffer for the want of green grass and a constant supply of good fresh water. At this season water is more necessary for cows than even grass.

At afternoon there was not much done. The market rules sensibly flat, and closed for Bank Shares, sellers at 129½, buyers 129¾, for Cedulas 88¼.

Exchange ruled brisk enough, and about £50,000 passed at 47⅜; also something done in francs at previous rates.

Discount brokers report money easy enough at 7 and 7½ per cent.

Advices from Montevideo announce £150,000 in sovereigns coming in the Patagonia, and £80,000 on board the Euclid coming to the Italian Bank of this city. Merchants' letters state that before the middle of February half a million sterling in sovereigns will arrive at Montevideo.

For gold Argentines there was a demand to-day, and we heard of some lots sold at 2½ premium.

It was whispered on 'Change that letters from two eminent London bankers to Dr. Plaza, Minister of Hacienda, contain of the frequency of provincial loans in the London market, and which have a prejudicial effect on National credit. They said on 'Change that the Minister of Hacienda was closetted to-day with Governor Rocha about this business, and that it is probable no more Provincial loans will be allowed abroad unless previously sanctioned by Congress, the matter is one of moment, as the Ensenada port loan has just been launched in London, and we are not very sure with what result.

The sale of a cargo of tallow at 14⅜ rls. fts. gold is reported.

There is a general complaint in the whole market against the Lord Mayor, for the scandalous state of the Plaza Victoria. It seems that the Recoba question never will be settled, and the Plaza must remain for years as it is; better far not to have knocked down the Arch and removed the fountains.

Mr E Collier, of Manchester, who has arrived out from Europe, was welcomed on 'Change.

Freights rule the same, there is the same volume of cargo offering, but we believe more steamers.

Mr. Veyra, who crossed with his four bullock carts from Chel-e-Choel to Junin de los Andes was welcomed. This is another step in the country's progress, and shows what is doing in the far South. Junin de los Andes is this side of the Barioche Pass, and next door Chile.

Wools are the same; the buyers say that there are no fine cloth wools in the market; special wools are in demand, but not to be had.

With much pleasure we announce that Dr. Avellaneda, ex-President of the Republic is better.

The new baths in Calle Piedad, alongside the River Plate Bank, are doing a roaring business, the place is as much crowded as the bank itself. A plunge, a swim, or a discount on such a truly hot day is most agreeable; all the River Plate Bank staff are splendid swimmers.

The sale of 2 square leagues in Entre Rios, partido Victoria, is reported at the rate of 14,000 pats per league. Entre Riano camps are going up fast.

Advices from Europe about wheat are most unfavorable, the telegram to-day gives low quotations and market falling.

President Roca, it is said, will leave for the mountains of Cordoba about the 20th or 26th inst.

Mr Hauquet and party are expected in to-night from Venado Tuerto.

The following sales have been realised by the Buenos Ayrean saladeros:

From Podesta Bros., 6 to 8,000 salted ox hides 65 lbs, at 50⅞ rls gold; 100 pipes tallow at 14 rls arrobe. From S. Rocca & Co. and John B. Repetto's 11,000 salted ox hides 45

El Miercoles 16 de Enero 1884
A las 2 p.m.

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo, por orden terminante de su propietario, 65,000 hectareas de campos ubicados en la Seccion 2ª y 3ª de os Territorios Nacionales.

Los numeros que se ofrecen en venta son el 3, 4, 7, y 8 de la letra B- la mitad Sud del numero 23 y el numero 24 de la letra D, todos de la seccion segunda y el numero 3 de la letra A, seccion tercera Territorio Nacional.

Son lotes 3, 4, 7 y 8 forman un cuadrado perfecto de 16 leguas, situado ventajosamente a diez leguas al Oeste de Trenque-Lauquen.

Por el telegrafo hace tiempo que nos hallamos en comunicacion diaria con este punto de creciente importancia.

La diligencia de Vallee cruza estos campos en su trayecto lejano al pueblo Victorica que se halla 35 leguas mas afuera.

Faltaba solo la locomotora para trasportarnos en dos dias de la capital de la nacion a la civilizacion naciente pero vigorosa de la frontera.

Felizmente esto se ha conseguido.

Los trabajos del ferro-carril del Oeste se han dividido en tres secciones.

La primera al 9 de Julio se ha abierta ya al servicio publico.

La segunda que va a Las Mellizas ya se ha empezado, y una vez terminado esto se emprenderan los trabajos de la tercera seccion que nos llevara a Trenque-Lauquen.

Dentro de dos años podemos pues, asegurar que estos campos estaran cuando mas a 48 horas de la ciudad de Buenos Aires.

Este solo hecho triplicara el valor de todas las tierras en esa direccion.

En cuanto a la calidad de la tierra de este lote de 16 leguas, nos referimos a los informes oficiales del agrimensor Sr Maqueda quien los mensuro y amojono.

Dice el—"La calidad de estos campos es buena, siendo abundante en sus aguadas y pastos tiernos.

Hay tambien tres bosques de consideracion, de algarrobo y calden, cuya utilidad y riqueza es indisputable.

En toda la estension del campo hay 14 lagunas casi todas ellas de caracter permanente. Una de ellas de agua dulce mide 700 metros de largo por 400 metros de ancho con un buen monte a su alrededor.

Hay varios cañadones con pastos tiernos para ovejas.

Fuera de estas importantisimas aguadas dulces hay varios ojos de agua y jagüeles indios.

Los linderos son los Sres Unzue, Del Carril, Drysdale, Irigoyen y otros de igual importancia.

El lote de 10 leguas se haya igualmente bien situado.

Se compone de los numeros 3, letra A. de la seccion tercera la mitad Sud del numero 23 y el numero 24 de la letra D. seccion segunda territorio nacional.

A 4 leguas solamente del gran Establecimiento poblado del Señor Anchorena y a corta distancia de la estancia alambrada de D Saturnino Unzue, y sobre el camino precisamente que pasa de Guamini, Carhué a General Acha, se halla en contacto diario con los establecimientos mas importantes alrededor de Bahia Blanca.

Su proximidad relativa a este gran puerto y el hecho importante de estar sobre la via que pasara de Bahia Blanca a Mercedes, lo coloca en una position muy ventajosa para el poblador que prefiere una buena vecindad a la seguridad problematica de los campos mas lejanos.

Sobre la bondad de estos campos hablaran los agrimensores Maqueda y Dillon, de cuyos informes oficiales extractamos lo siguiente :—

Linea Norte—Se encuentran vestigios de haber sido una gran tolderia de indios, campo ondulado, alto y descubierto, hay un buen monte de Chañares y Caldenes.

Linea Oeste—Campo medianamente abundando la gramilla en los montes.

Linea Este—Montes de caldenes, terreno poco accidentado con lagunas.

Linea Sud—Hay montes, cañadas de agua dulce, y muchos caminos indios.

Abundan los pastos puna dulce, trevol, gramilla colorada cerca del angulo S O hay vestigios de Tolderias de indios donde convergen los distintos caminos cruzados por las lineas. Hay gran cantidad de jagüeles de agua dulce. Este punto es conocido por el nombre de "Ranquilco."

Por folletos y planos de estos campos, ocurrir a nuestra casa, Alsina 78.

El Martes 22 de Enero de 1884
A las 2 en punto de la tarde

Venderemos a la mas alta postura y a los plazos arriba indicados 32 leguas de esplendido campo, ya celebre por sus ricos pastos tiernos, sus abundantes aguadas y la fertilidad de sus tierras.

Los numeros en venta son el 11, 19, 20, 21 y 22 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 8, Territorio Nacional.

Todavia existen alli los vestigios de las Tolderias de los Ranqueles, sus rancherias, sus corrales y sus jagueles de riquisima agua.

Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos

Campos de pasto tierno

Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.

Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temerse mutuamente.

Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos iguales a los campos de adentro que valen hoy pesos 3,000,000 la legua.

El informe del agrimensor Alsina sobre estos campos dice textualmente asi :

"Estos campos que fueron ocupados por los indios Ranqueles se encuentran respecto de calidad y cantidad de pastos, montes, piso, etc, en identicas condiciones que los campos de Leubuco y Poitague, cuya superioridad es publicamente conocida."

"Dice el agrimensor Pico que los arboles de esta region son inmensos, entre ellos los hay que miden cuatro y media varas de circunferencia en su tronco principal abarcando con sus ramas un diametro termino medio de 3 varas."

Apesar que algunos colocan el Pueblo Victorica, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que les permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.

Fuera de una infinidad de jagueles de agua riquisima el campo tiene las lagunas siguientes—Poitague, Aucamelué, Lui Carreta, Tirlan, Utra Trigoin, Echoué, Quillai Lauquen, Quitriril, Antiqueo, Guada y varias otras de huvia sin nombre.

Por planos y folletos ocurrir a nuestra casa, Alsina 78.

Las condiciones de pago son ½ parte al contado, y el resto a una y dos años de plazo sin intereses y con pagares hipotecarios.

10,000 hectareas ubicadas en la IV Seccion Letra A, lote num. 14.

20,000 hectareas, ubicades en la X Seccion, Letra B, lotes num. 24 y 25.

La primera fraccion queda como a 25 o 28 leagues de una de las Estaciones del Ferro Carril del Sud de Bahia Blanca y de consiguiente puede decirse a 1 dia escaso de la Capital. El campo es quebrado, muy abundante en pastos, siendo estos mezclados, predominando un pasto fuerte de excelente engorde.

Hay monte de caldon y algarrobo, siendo la parte Norte del lote mas montuoso, y mas pastosa la parte Sud. Tierra algo arenosa pero muy buena y segun las opiniones de las personas que han informado sobre esos campos por haber recorrido toda la seccion, es sin duda el mejor lote de ella.

En cuanto a los informes de las 8 leguas de la X Seccion, son mas o menos iguales.

Estas campos queda muy cerca de los que acaba de vender el Sr Tornquist al Sr Bernasconi y a la gran estancia del primero de estos señores uno de los mas grandes Establecimientos de la parte Sud de la Provincia.

Las grandes vias ferreas que deben arancar del gran puerto de Bahia Blanca y que cruzaran la inmensa zona de tierras Nacionales, encerrandolas un vasto circulo de hierro y que terminaran en Antuco (Chile) Ville Mercedes, San Luis, etc, tienen forzosamente que impulsar y dar gran valor a todas estas tierras.

La adquisicion de estos campos esta al alcance de todos y las condiciones son ventajosas la mitad al contado y el resto a 12 y 24 meses (1 y 2 años) de plazo sin interes, con pagare hipotecario.

No hay base, ni limite para la venta.

Lote num. 1—Una linda y bien construida casa situada en la calle Sola 335, prolongacion de la Salta, con 9 piezas hermosas, a mas cocina, caballeriza, letrina, con corredores en toda su estension, gran portada y elegante fachada, pisos de tabla y baldosas, chimeneas de marmol, cielos rasos empapelados, lindas y grandes plantas de merito, parrales con zarzas ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.

La rigueza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.

Podemos asegurar que antes de dos o tres años estara colonizada la mayor parte de esta zona, pues las colonias de Santa Fe, como puede verse en el mapa adjunto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.

Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.

Es publico y notorio que estos señores acaban de enviar a Santa Fe al Señor Hon F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van incontinenti a ser colonizadas en gran escala.

Estan depositados en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.

En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuertes la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.
